

Ethics is Good Business®

More than ever before, property professionals are under greater scrutiny from owners, tenants, and the media – which means you’ll need the skills and credentials to show you’re “on the level.” Ethics is Good Business helps you understand the impact that ethical behavior can have on your professional performance and your property’s bottom line. This course is available as a six-hour, interactive seminar or in a self-study format. Through video presentations of real-life scenarios and case studies, you will identify and resolve ethical dilemmas that can occur on the job.

You will take away these key concepts and skills

- An awareness of how ethics influences your business success
- The ability to better identify potential ethical issues, thereby avoiding them
- Guidelines to use when identifying various value systems, and when articulating your own
- Skills in recognizing the progression of events that can lead to ethical misbehavior
